

# Future Network II

---

Chairs: Prof. Yang-hee Choi, SNU, KR

Ms. Man-Sze Li, IC Focus, UK

- Dr. Byung-kyu Kim, NIA, KR
  - TEIN/KOREN for Future Internet Testbed and Key Applications
- Dr. Robert Jones, CERN, CH
  - EGEE (Enabling Grids for e-Science)
- Prof. Seung-woo Seo, SNU, KR
  - Security Issues in Future Internet
- Dr. Dany Vandromme, GIP RENATER, FR
  - A pan-European research network perspective: GÉANT

# Future Network II: potential areas of collaboration

---

- E-Infrastructure, Grid Infrastructure, and Future Internet testbeds
  - Infrastructure interconnection
  - Application use/prototypes, in e-science and beyond

Status: collaboration already started in GÉANT, TEIN & EGEE;  
new collaboration opportunities perhaps in GÉANT3, TEIN4 & EGEE4

- Security
  - (New) security requirements for Future Internet
  - Trust, Security, Dependability (and Privacy)

Status: new area for collaboration

- Additional Issues
  - What is the Future Internet?
  - What are its requirements?
  - Funding Models ↔ Collaboration Models ↔ Sustainability Models
